II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? Approx. 5 Tons

3. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, volume of material moved, and the acreage affected.

We were still in the Pilot Test Phase of our project. Tests were ran in California, Idaho and in Utah. For these tests, we used approx. 5 tons of Ore. A few feet of a $\frac{1}{2}$ acre

4. Briefly describe the reclamation work performed during the past year. This description should include acreage reclaimed, methods employed, and an evaluation of the results.

There was a very small spot of ground disturbed due to our test project, which continues. No reclamation performed on this area at this time.

5. What was the total unreclaimed acreage at years end? none

6. Briefly summarize mining and reclamation planned for the upcoming year.

We are preparing to set-up a 200 ton Field Unit which we have been running tests with. It has proven very successful. Start up date around May-90.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
